

We will use the data of foreign patients who have been involuntarily admitted to the psychiatric wards in Chiba prefecture.

At Chiba Mental Health and Welfare Center and Chiba Emergency Psychiatric Medical Center, we are conducting clinical research on foreign patients who have been involuntarily admitted to the psychiatric wards on their arrival in Japan. The title of the study is “the survey of foreign patients who are involuntarily admitted in Chiba prefecture.” The main purpose of this research is to assess the distribution of hospitals that accept foreign patients. We will use the data of patients taking part in the research, unless instructed otherwise.

- This research will be reviewed and approved by the Ethics Committee of Chiba Emergency and Psychiatry Medical Center.

Research period: approximate date of approval to 3/31/2025

Coverage period for patients: approximately between 4/1/2019 and 3/31/2024

- We will use data stored at the Public Health Centers in Chiba Prefecture.
- This research is a retrospective observational study. No new clinical observations will be carried out, and no new expenses will be incurred. There will also be no form of compensation given to the patients.
- The data will be anonymized and strictly protected.
- The results of the research will be used for presentations at scientific meetings and disseminated through outlets such as scientific journals.
- Any intellectual property that arises through the research will belong to Chiba Mental Health and Welfare Center and Chiba Emergency and Psychiatry Medical Center.
- The researchers have no potential conflicts of interest to declare.

If you disagree with the use of the data by March 31, 2025, please contact us .
